

Access Statement for 7 Lingmoor View, Langdale

Introduction

As a participating member of Quality in Tourism (*VisitBritain*) “star” grading system we have an obligation to make available information to assist those with disabilities to allow them to assess whether the cottage is suitable for their access needs. It is with regret that we consider our cottage largely unsuitable for wheelchair access due to its unlevelled access and the size and age of the property.

Our self-catering cottage is a mid terrace property built in approximately 1870 with access to the front and rear of the property. We have tried to provide as much information as possible in this statement although if you have any queries please do call. We look forward to welcoming you.
